# HOW TO ENSURE HIGH-QUALITY PRODUCTS ON YOUR AUTOLINE SPLITTING SAW

**Achieve yield improvements** by having your certified Frontmtec service specialist perform a scheduled service, where they carry out the exact alignment of the columns together with the tool and fixation slide, ensuring you fast, reliable and precise cuts, necessary for achieving the best meat price.

**Have a smooth operation with pro-longed life-time and low maintenance** by ensuring the highest possible protection of the shafts with the help of your service specialist, who will ensure that the supporting rollers are at their optimal condition.

**Stay prepared for the unexpected** by having an exchange and repair solution for the transmission box, and by stocking the most used spare parts for daily operation, such as power cables, drive-click cables, motors, gearboxes, etc.

*Recommended grease to be carried in stock - SLBG-F Part no. 5000043203*
