HOW TO KEEP YOUR DEHAIRING MACHINE IN AN EXCELLENT AND EFFICIENT SHAPE

Secure continuous high performance by having your certified Frontmatec service specialist perform a scheduled bearing service, which includes check of bearing leakage, optimal greasing for highest possible protection of the bearings. The experienced eyes of your Frontmatec service technician will state whether the bearing balls still are in the right clearance. The service also includes test function of the deshacklers.

Stay prepared for the unexpected by stocking rubber fenders, drum bearings and paddles.

Lower the operation costs by prolonging the life-time of your bearings with choosing the especially engineered greases from Frontmatec.

Greasing for sliding rails and bearings - Part no. 5000020161.
