HOW TO MAINTAIN EFFICIENT DEHIDING ON YOUR HYDRAULIC DRIVEN ALL-ROUND HIDE PULLER

Ensure high performance with prolonged life-time by having your certified Frontmatec specialists verify the operational condition and tension of the dehiding chains, as well as ensure that the operational function of the hydraulic drive system together with the pull force of the roll and frame meet the requirements needed to achieve continuous efficient and high quality dehiding.

Maintain a smooth operation with a high level of safety with the help of your skilled and experienced service specialists, who control and ensure the correct function of the hydraulic unit together with the condition of the platform valves and cylinders for optimal flow and speed combined with a high level of safety.

Stay prepared for the unexpected by stocking critical spare parts for daily operation, such as pull-chains, dehider rolls, cylinders, valves and bearings.
